### Reporter Plasmid: pRc/CMV-Hbs(S)

pRc/CMV-Hbs(S) (or simply pCMVs) expresses the hepatitis B surface antigen (small, or S protein) under the control of the CMV immediate-early promoter. This plasmid is freely available upon request for validating DNA-based immunization methods and other experimental uses. Aldevron can complete the plasmid purification service and return the ready-to-use formulation to the researcher.

Catalog #	Description	Size	Price	X Qty	Subtotal
PCMVS-F*	FREE sample available for experimental uses. *	≈ 2 µg*	FREE* (no ship fee) **	review below	review below
5012	Custom pCMVs Plasmid Purification	10 mg	\$700		
[ ] Specified Concentration		mg/ml	\$100		
In which buffer would you like your DNA returned? <input type="checkbox"/> HEPES <input type="checkbox"/> PBS <input type="checkbox"/> Tris <input type="checkbox"/> TrisEDTA <input type="checkbox"/> Water <input type="checkbox"/> Saline					

\* IMPORTANT: by requesting the free sample of pCMVs, you signify your agreement to the following statement: "I understand that the description of this plasmid is contained in a patent application. I agree that it is to be used for research purposes only, and that it is not to be used for any human experimentation. I am aware that this plasmid has been described in Michel ML, Davis HL, Schleef M, Mancini M, Tiollais P, Whalen RG. DNA-mediated immunization to the hepatitis B surface antigen in mice: aspects of the humoral response mimic hepatitis B viral infection in humans. Proc Natl Acad Sci USA. 1995 Jun 6; 92 (12): 5307-11. I will endeavor to cite this paper where appropriate." To receive a free sample, please sign and date below attesting you agree and understand the preceding and either mail or fax this form to Aldevron, or visit <http://www.dnavaccine.com/Plasmids/mta.html> for instructions for requesting the free sample via e-mail.
